WE'RE GETTING READY!

Dave & Sue will visit Wundanyi in October

**Mary & Marilyn's
Christmas Sale**

All Saints Hopton

Sat Nov 16th 10am

**In aid of Mwangeka
High School students**

Dave & Sue Shorten will spend ten days in Kenya in October. They will visit all the projects that Education Exchange supports in and around Wundanyi.

- * Mwangeka High School
- * Upper Planet Training Centre
- * Mvono Clinic
- * Taita Environmental Initiative

They will meet people whose life chances have been genuinely improved by your donations

They will report back to all supporters on their return

Their main focus will be Mvono clinic, where they hope to agree with Selina Mach, the owner, an area of improvement which Education Exchange can help to fund over the next couple of years.

Education Exchange has always planned to get involved in a major drive to improve access to decent health care—and this, they hope, will be the big one!

Much more information when they return

Trustee Ellie Stewart, Abbie and Naomi show off the Education Exchange T shirts

Free T shirts for all our supporters

Our business sponsor, Lighthouse Consultancy in Indonesia, has donated 50 T shirts to help us with our marketing and publicity. We are offering them as gifts to all our donors and supporters—on the condition that you wear them and explain all about us to your family and friends!

Please help us by wearing the EdX T shirt at every posh function you attend this autumn!

If you'd like a T shirt, please contact Dave Shorten by phone or email

Sizes are M, L and XL

You can have more than one, but we would ask a donation of £5 for each extra shirt

With a major health project just over the horizon, we're going to need more supporters and donors—your T shirt can help: wear it with pride! And tell people about us!
